

How to Use This Workbook

Welcome to the UDL Sketching Hub Workbook! This workbook follows a progressive mastery approach, supporting learners at all skill levels through structured practice and honest self-assessment.

The Progressive Mastery Model

- **Novice:** Building foundational skills through deliberate practice
- **Proficient:** The goal for all learners - consistent, reliable execution
- **Mastery:** Optional specialization with effortless fluency

Everyone progresses at their own pace. Use the scaffolding suggestions and aids guidance to support your learning journey.

Recommended Materials

- Sketch paper or marker paper (smooth surface, 70-80gsm)
- Pencils: HB, 2B, 4B for line weight variation
- Fine liners: 0.3mm, 0.5mm, 0.8mm
- Straightedge and french curves (as aids, not crutches)
- Ellipse templates (professional tools, not cheating!)
- Optional: Markers (Copic, Prismacolor) for rendering

Scan this code to access video demonstrations for each concept.

Videos complement the written instructions with real-time technique demonstrations.

Self-Assessment Philosophy

At the end of each module, you'll find a rubric for self-assessment. Be honest with yourself—identifying areas for growth is how you improve. **Proficiency is the goal for all learners; mastery is optional.**

This workbook is designed to complement the online UDL Sketching Hub. Visit the web version for interactive features, progress tracking, and community resources.
